

May 3, 2017

Dear Editor-in-Chief,

We hereby confirm that the article entitled “**Selection of white mold-resistant soybean genotypes as a function of oxalate sensitivity**” was translated and then revised by two different native English-speaking translators.

The translators who worked on the article were Lisa Burger Garcia and Michael Germain, joint co-founders of Traduciência.

Should you require any further information regarding the work done on this article please do not hesitate to contact us.

Regards,

Lisa Burger Garcia

Translator and Co-Founder of Traduciência
